

## Flexible Materials

### Flexwood® Sheet Veneer

10mil

- Flexwood® 10 mil paper backed wood veneer sheet
- Wood Veneers, permanently bonded under heat and pressure to a resin saturated backer sheet. This backer allows flexibility and acts as a barrier to prevent adhesives and finishes from penetrating.
- Flexwood® is 100% surfaced sanded.
- Flexwood® is manufactured book matched and sheet matched. Sequence matching, and other types of matches are available by quotation.
- Available in 4' x 8' and 4' x 10' sheets
- Other species are available on request.

## Flexible Materials

*Flexible Materials has been in business for over 67 years, and introduced Woodtrim®, the first commercially available wood edgebanding over 40 years ago.*

## Flexible Materials

### Flexwood® Sheet Veneer

Wood Over Wood

- Flexwood® WOW - "Wood-Over-Wood" flexible veneer sheet
- Wood-Over-Wood is composed of two wood veneer faces permanently bonded with the grain of the face running perpendicular to the grain of the back.
- Flexwood® WOW is 100% surface sanded. WOW's unique construction results in a very stable product that minimizes the wood veneer's tendency to expand and contract.
- Flexwood® WOW is available in 4' x 8' sheets, and some species in 4' x 10'.
- Available 5' wide by special order
- Other species are available on request.

## Fastedge Edgebanding 50' Rolls

### Self-Adhesive Peel and Stick Edging

- Fastcap has developed continuous rolls of self adhesive peel and stick edgebanding that can be used for many field applications including scribe tape for trimming cabinets or wider materials for toe kicks.
- This edgebanding is coated with a highly aggressive pressure sensitive adhesive which allows for an instant bond and can be easily trimmed with a trimmer or utility knife.
- 15/16" x 50 Ft. rolls
