KAMPEL ENTERPRISES, INCORPORATED

SeamFil[®]

Laminate Filler

- For the finishing touch to any laminate job, particularly in kitchen or bath installations, use SeamFil[®] to match any laminate pattern, color and woodgrain.
- The basic colors of SeamFil[®] will directly match plastic laminate colors. In some cases mixing may be necessary. Colors are easy to mix.
- SeamFil[®] won't crack or fade. Seam Fil's special blending process gives it the same resistance to moisture, detergent and temperature changes as the laminate.
- Covers joints and cracks and adds beauty to your craftsmanship.
- Sold in 1oz tubes

SeamFil[®] standard basic colors are listed below. Special order color matches are available on request and many common items are stocked locally. Contact your McKillican branch for information.

SEAMFIL®—for the finishing touch!

www.kampelent.com

ColorFlex Sealants

- For corner and perimeter caulking. After the component (counter, vanity, bath surround, etc.) is installed and the laminate seams have been filled with SeamFil®, ColorFlex is used to seal the inside corners and the perimeter of the component. Where flexibility is needed, ColorFlex is perfect for filling gaps and sealing where the components meets the walls, floors, cabinets, tile or insets.
- Available in 4 oz. squeeze tubes and 10.5 oz. cartridges.
- Water-soluble for easy clean-up
- Exact color matches available for all laminate, solid surface, wallpaper, paint and tile manufacturers.
- 70 standard colors available, stock colors listed below:

FINISHES, CAULKS & FILLERS

Acrylic Latex Caulk Plus Silicone

ALEX PLUS®

ALEX PLUS® Acrylic Latex Caulk Plus Silicone is a professional quality caulking product formulated to last 35 years or more. It is a multi-purpose adhesive caulk for interior and exterior use.

- Alex Plus® contains silicone, which allows for better adhesion and flexibility. It prevents air and moisture from passing through cracks and joints. It provides excellent flexibility to resist expansion and contraction without cracking.
- Cured caulk is mildew resistant.
- Alex Plus® is paintable with latex and oil-based paints. Safe, latex-base, water cleanup formula.

Tub & Tile Adhesive Caulk

KWIK SEAL®

KWIK SEAL® Tub & Tile Adhesive is an easy-to-use, multi-purpose adhesive caulk ideal for caulking and sealing in the bathroom and kitchen. It bonds like a glue and seals like a caulk.

- It is specially formulated to provide a watertight seal around tubs, sinks, showers and countertops.
- Cured caulk is mildew resistant.
- Offers excellent adhesion, flexibility and durability. It tools easily and dries tack free in 15 minutes.
- Excellent for areas subject to water contact and high humidity. Dried surface cleans easily and is paintable with either latex or oil-based paint.
- Resists abrasive chemicals. Easy water clean-up.

Siding and Window Sealant

SIDE WINDER™

DAP® SIDE WINDER™ Clear Siding & Window Sealant uses state of the art sealant technology to bring you the best crystal clear siding, window & gutter sealant available. Side Winder is ideal for your siding application because it stays permanently flexible while resisting weather, dirt pick-up, cracking & yellowing. DAP® SIDE WINDER™ forms a flexible, watertight and weatherproof seal and comes with a lifetime durability guarantee.

- Advanced polymer formula combines the key benefits of several technologies
- No shrinkage, excellent paintability in 2 hours, virtually no odor
- Cures in 24 hours
- Excellent adhesion to vinyl, wood, aluminum and fiber cement siding
- Permanently flexible, no cracking
- Wet weather and low temperature application.
- No shrink and virtually no VOC's (less than 1 percent).
- Interior/exterior use. Paintable
- Meets performance characteristics of ASTM C920

FINISHES, CAULKS & FILLERS

230® Premium Elastomeric Sealant

DYNAFLEX®

DYNAFLEX 230® Premium Elastomeric Latex Sealant is a superior quality, technologically advanced sealant. It combines the durability and flexibility associated with a silicone, with the paintability, low odor and water clean up of a latex sealant.

- Permanently flexible, withstanding up to 50% total joint movement without cracking or losing adhesion.
- DYNAFLEX 230® is unaffected by temperature extremes (-30°F to 180°F).
- Cured caulk is mildew resistant.
- Paintable with latex or oil-based paints. Interior and exterior use.

DAPtex® Insulating Foam Sealant

DAPtex®

DAPtex® Insulating Foam Sealant is a latex-based formula that will not over expand like polyurethane foam. It is the best choice for sealing around windows and doors during installation.

- DAPtex® seals out drafts, eliminates energy loss, and prevents pest infiltration. Its reusable, non-clogging applicator and easy soap and water clean up eliminates the waste and mess of other insulating foam sealants.
- Toolable, moldable and can be painted with latex paint once cured.

Mfg Part#	Size	Color	Case Qty	Item #
18826	12 Oz.	White	12	3136190

Insulating Sealant

KWIK FOAM®

DAP® KWIK FOAM® Insulating Foam Sealant is a one-component, moisture cure, polyurethane insulating foam that expands to economically fill and seal large cavities.

- It expands to form a permanent, waterproof bond to wood, concrete, metal, glass and brick. It stops air infiltration and will not shrink or degrade. Contains a flame retardant and meets Montreal Protocol 1987, Vienna Protocol 1986 and Bill 218 of the Province of Ontario, Canada.
- Cured foam can be sanded, painted or stained.
