

Flakeboard Company Limited

KCMA Environmental Stewardship Certification Program

Points Available for Flakeboard Products

Under the KCMA Environmental Stewardship Certification Program, Flakeboard products may contribute:

Section I, A. Air Quality:

10 Points: Particleboard purchased meets the formaldehyde emission level of the CPA EPPS CPA 2-06 Specification: 75% or greater*

Section I, B. Air Quality:

10 Points: MDF purchased meets the formaldehyde emission level of the CPA EPPS CPA 2-06 Specification: 75% or greater*

Section II, A. Resource Management – Product:

10 Points: Particleboard purchased meets the CPA EPPS CPA 2-06 Specification for recycled/recovered fiber content: 75% or greater*

Section II, B. Resource Management - Product:

10 Points: MDF purchased meets the CPA EPPS CPA 2-06 Specification for recycled/recovered fiber content: 75% or greater*

*At a minimum, 75% of the KCMA manufacturers incoming PB or MDF must be EPP certified, and the remaining 25% must meet ANSI A208.1/A208.2. Please source Flakeboard EPP certificates to demonstrate third-party certification to the standard referenced (EPP 2-06).
